

See us at Australia's premier annual AV and Integration trade show, visit Integrate this year in Melbourne.

We're excited to exhibit at Integrate 2019 when it returns to Melbourne from 27-29 August at the Melbourne Exhibition & Convention Centre. This three-day event is a hub of activity for local and global brands to showcase solutions and products to AV technicians and corporate end users, meet with buyers, integrators, distributors and celebrate the latest industry developments.

Integrate is your opportunity to interact and test the latest cutting-edge innovations in the industry and talk to the specialists behind these leading products. You'll discover the insights you need to navigate the future of AV at Australia's most extensive AV education and accredited training programs from AVIXA and CEDIA.

For more information on what's on visit www.integrate-expo.com and don't forget to register online for free and quick entry!
